

Year 10

Overview	<p>The art curriculum is diverse and cultural learning encourages awareness, empathy and appreciation of difference and the views of others through a range of topics and artists. Our curriculum is well planned and sequenced to upskill students as they develop through the all-through curriculum. The projects are wide ranging and open to creativity and independent working, whilst also following the National Curriculum.</p> <p>Pupils can work both independently and collaboratively demonstrating determination and resilience. Importantly, pupils are confident to express their own ideas and creativity with a sense of individual identity. Literacy is prominent within the arts, pupils discuss ideas about their own artwork, peers, and the work of artists.</p>
